Please find below and/or attached an Office communication concerning this application or proceeding.

Response to Amendment

1. The reply filed on 1/5/2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the amendment does not overcome the restriction since the apparatus disclosed in claims 1 through 7 drawn to a grain moisture meter could be used to practice another materially different process such as one which does not require the calculation of density. Furthermore, applicant failed to submit a complete reply since the reply did not include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment.

EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

2. In order to expedite prosecution, a telephone call was made to Mr. Timothy Platt at 46 (0) 8 5988 7200 on 2/2/2006 to request an oral election, but did not result in an election being made.

Again, applicant is advised that the reply to requirement to be complete must include an **election of the invention to be examined** even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2859
